

# ***A Little Help from My Friends***

## Supply List

You have purchased a completely precut kit with all the fabric you need for the class. In addition, you must bring the following supplies.

**Seam ripper**

**Thread snips or small scissors for clipping threads**

**Small scissors or rotary cutter and small mat for trimming some dog ears.**

I have elected not to trim a few the dog ears in this kit for construction purposes. More explanation will come during class. There won't be too many to trim, and you will not need a ruler if you choose to trim with a rotary cutter. Just bring the cutter and a small mat.

**Pins**

**Small trash bag**
